SUMMARY

An ambitious and results-driven BSc in Information Technology graduate with a solid foundation across multiple areas of the IT industry. I am open to entry-level and graduate opportunities within the broader IT field, including software development, data analysis, network infrastructure, and information security. My strongest interest lies in software development, where I aspire to contribute to innovative projects that enhance efficiency and user experience. I bring strong analytical and problem-solving skills, a willingness to learn, and a proactive approach to professional growth in a dynamic and technology-focused environment.
